

Bosch Community Fund Grantmaking 2026 - English

Bosch Community Fund

Overview

Overview

The Bosch Community Fund is the corporate foundation for Bosch in North America. Beginning in 2025, the fund has expanded its grantmaking to reach Mexico.

We seek projects that create systemic change and foster long-term community resilience in the following priority focus areas:

1. **STEM Education:** Support the talent pipeline and help address science knowledge gaps through innovative, project-based STEM learning opportunities.
 - a. Workforce development, talent-pipeline, and career pathways in STEM
 - b. Initiatives that address documented gaps in science education, access, and participation among students in underserved and underrepresented communities, priority for organizations supporting the engagement and advancement of women and girls in STEM
 - c. Hands-on, inquiry-based STEM education that builds future-ready skill
 - d. Programs serving secondary school-aged youth and older learners, including technical, vocational, post-secondary, and workforce development populations.
2. **Environmental Sustainability:** Support the conservation and restoration of natural resources and the development of resilient communities. Priority consideration is given to projects focused on:
 - a. Biodiversity and natural resource preservation
 - b. Water conservation, water reuse, and watershed health
 - c. Pollution reduction and environmental stewardship
 - d. Waste reduction, management, and recycling
3. **Eco-STEM:** Support environmental education by integrating it into hands-on, project-based learning approaches that engage students in sustainability issues, building environmental literacy and critical thinking skills. Priority consideration is given to programs that:
 - a. Connect students and communities to environmental science and sustainability
 - b. Prepare learners for careers in the green economy and environmental sectors
4. **Natural Disaster:** Support organizations that work to prevent natural disasters through preparedness and risk reduction efforts, provide immediate response and emergency assistance during disasters, and help communities recover and rebuild afterward through long-term resilience building and restoration of resources.

Character Limit: 1

Eligibility Criteria

- Organization must have registered nonprofit status in Mexico.
- Must have "Donataria Autorizada" status with SAT to receive tax-deductible donations.
- Must be able to issue Digital Federal Tax Receipts (CFDI) compliant with current tax requirements.
- Alternatively, applicants may apply by partnering with a registered fiscal sponsor that holds the required "Donataria Autorizada" status and meets all necessary tax registration and CFDI issuance requirements.
- **Exclusions:** Religious organizations, political campaigns, and individuals are ineligible. We also do not provide grants to endowments, capital construction, religious activities, political lobbying, and/or programs outside focus areas

Geographic Focus

This initiative is established as a national fund for Mexico and is not restricted solely to locations where Bosch operates plants. The strategy includes expanding reach beyond existing local sites to rural communities to ensure greater impact such as the arid north and the State of Mexico.

Grant Amounts and Duration

This is a one-year, invitation-only grant program with individual awards based on the organization's overall budget and project scope. Grant awards will not exceed **10% of an organization's annual operating budget**. Through this program, we aim to build strong, long-term relationships with nonprofit partners in Mexico and support sustainable impact through ongoing collaboration beyond a single grant period.

Submission Instructions

To apply, please submit a completed application through our grants management system, linked [here](#), by **July 31, 2026, by 5 PM (Mexico time)**.

The application will be available in both English and Spanish, please only submit ONE application in whichever language is preferred.

If you have any questions, please email TPI at boschmexico@tpi.org.

Anticipated Outcomes*

What are the anticipated outcomes (both quantitative and qualitative measures) of this grant by the end of the grant period? How will the proposed efforts lead to improved outcomes for those served?

Examples of potential outcomes include:

- Increased academic achievement in STEM-related coursework
- Increased exposure of youth to STEM learning opportunities and careers
- Greater interest in and more positive attitudes toward STEM among youth
- Increased STEM knowledge, skills, and competencies among participants
- Increased participation of underrepresented populations in STEM education and career pathways
- Increased educator and administrator knowledge of STEM content and instructional practices
- Expanded access to STEM resources, tools, and curriculum for educators and administrators
- Improved environmental conditions, conservation outcomes, or sustainability practices
- Other outcomes relevant to the project's goals, target population, and focus area

Note: The examples below are provided for illustrative purposes only. Applicants are **not required** to select from these outcomes and may identify other outcomes that are more appropriate for their program, community, and goals. These examples are intended to help applicants consider the types of results they may wish to track and report on during the grant period. *Please only include the outcomes you are actually tracking and can report on.*

Character Limit: 5000

Outcome Measurement*

How will you measure whether you have achieved these outcomes? What data will you collect and how will you collect it? Please describe.

Character Limit: 1500

Will this grant support ongoing work or projects new to your organization? Please describe.*

Character Limit: 3000

Required Attachments

Budgets in Mexican Pesos

Please be sure to include both revenue and expenses. For revenue sources, list major donors including private, public, and corporate Foundation support from the past 3 years.

Donataria Autorizada

Is your organization registered under the Régimen de Personas Morales con Fines No Lucrativos and has the “donataria autorizada” authorization to receive charitable donations? Please upload confirmation.

File Size Limit: 4 MB

Equivalency Determination

Has your organization received an equivalency determination through NGO Source or another US entity? If so, please upload confirmation.

Please note: An NGOsource Equivalency Determination is **not required** to apply and should not deter eligible organizations from submitting a proposal. Organizations that do not currently have an Equivalency Determination or equivalent status remain eligible for consideration. For organizations selected for funding, we are prepared to provide guidance and support through the equivalency determination process, as needed. Organizations may be asked to provide additional documentation as part of the review and due diligence process.
